
FSH SOCIETY & FSH MD

The FSH Society, Inc. is a 501(c)(3) non-profit tax-exempt U.S. Corp. founded in 1991. It's purpose is to help fund and promote scientific and clinical research on Facioscapulohumeral Muscular Dystrophy (FSH MD). It is the world's largest and most progressive grassroots network of patients, their families and research activists.

Currently there is no treatment or cure for FSH MD, the most prevalent form of MD worldwide.

We are dedicated to finding treatments and a cure for FSH MD through basic, translational and clinical research. We engage and support tens of thousands of patients, their families and friends worldwide. We award post-doctoral fellowships to researchers; provide education and outreach, and advocate for patients with government and industry to increase funds for research and to encourage drug trials.

In less than twenty years, investigators from around the world have defined the course of the disease; mapping the genetic mutation to chromosome 4. Today we know that most cases of FSH MD are linked to a decrease in the number of repeats (adjacent copies) of a DNA sequence called D4Z4 located at the end of chromosome 4.

The most important way for you to have an impact on FSH MD is to make a gift to the FSH Society. Thank you.
