2013 Annual Donor Report

The Power of Many

TOGETHER WE ARE LEADING THE WAY TO TREATMENTS AND A BRIGHTER FUTURE

Dear Friends,

With this Annual Donor Report, you will notice something different: our new FSH Society logo. We kept the crimson color to preserve continuity as we move from the past into the future. A flaming torch slashes across the bold capital letters, signifying how we have shed light into the black box that was FSHD and also how the FSH Society, all of us together, is leading the way towards treatments and a cure.

The torch also represents the act of becoming visible, standing up to be counted. Many of you experience isolation not due simply to the rarity of FSHD, but also to the understandable desire to keep quiet about having this disease. Your friends and colleagues may not even be aware that you have FSHD.

But as our Annual Donor Report clearly shows, many of you are using the power of your donations to make a lot of noise! Your gifts, large and small, are adding up and changing the world.

Thanks to you, we saw the first published high-throughput drug screening study. Your dollars greased the gears of sophisticated robots that squirted thousands of compounds onto microscopic clumps of DUX4-expressing cells. One of these could be the first new drug to fight the progression of FSHD.

Thanks to you, researchers are making rapid progress on new "FSHD mice," on methods to silence the expression of FSHD genes, and on critically important tools for clinical trials, while continuing to push the frontiers of the science of FSHD.

And thanks to you, no patient need face this disease alone. Just contact the Society and we'll connect you with others living with FSHD.

This Annual Donor Report is a testament to the power of our community. We deeply appreciate all those who supported the Society in 2013. And we hope to see your name on our 2014 Annual Donor Report!

You can help ensure that we continue with our rapid progress by renewing your membership or by making a gift today. You may use the enclosed envelope or give online at <http://www.fshsociety.org>.

Thank you so much for your generous support and for keeping the flame lit.

With very best wishes,

June Kinoshita
Executive Director

“We were very, very fortunate to get support from the FSH Society in the form of a postdoctoral fellowship back in the dark ages when nobody else was funding research on DUX4.”

—MICHAEL KYBA, PHD.
