

Do you have Facioscapulohumeral Muscular Dystrophy (FSHD)?

NOW ENROLLING!

Volunteers who are 18 to 55 years of age with FSHD needed for a study to evaluate functional mobility

Purpose of Study:

- To investigate a new method to measure functional mobility in FSHD population in preparation for future therapeutic clinical trials

About the Study

- Up to 2 visits to the Acute Rehab Unit or outpatient PT/OT clinic at University of California, Irvine Medical Center in Orange, CA.
- Up to 1 hour for each visit.
- \$200 compensation after completion of the study
- No cost to you or insurance.
- Lead Researcher of this study: Jay Han, M.D.; UC Irvine, Department of Physical Medicine and Rehabilitation
